

Caravan Salon 2024

VANTourer MAN - comfort and innovation on four wheels

Visitors looking for their next camping vehicle will get their money's worth at the Caravan Salon. They can also browse through the wide range of VANTourer models on site: Here, the MAN scores particularly well with its generous space concept and well-thought-out interior.

Koblenz. Whether as a couple, a family or in a group: traveling in the VANTourer MAN 600 D is relaxed because the interior space is used in the best possible way: While the GRP high roof ensures maximum headroom, everything has its place in the storage compartments and lockers.

Practical design solutions

And these are not the only space-saving elements in the MAN: in classic VANTourer tradition, every centimeter of the vehicle is used. The swivel front seats can be transformed into a cozy seating area in no time at all, with the fold-out table becoming the central meeting point. The diesel heater, gas bottle and on-board electronics can be stored in the comfortable seating area and remain easily accessible. And that's not all: the kitchen unit opposite has a high-quality design and, in addition to a stove and sink, also a space-saving 75-litre refrigerator that can be operated from in- and outside. The entire interior is presented in the appealing "White - Malaga Smoke" color scheme, creating a bright and inviting feel-good atmosphere. Intelligent design solutions round off the overall picture: a fly screen integrated into the door protects against insects without having to close the sliding door, while a rain gutter with LED lighting above it ensures dry feet and good visibility when getting in.

Flexible rear area

After a long journey in the VANTourer, a little breather is a must. The spacious sleeping area is equipped with a large, comfortable double bed, which is rounded off with matching ambient lighting. If required, the bed can also be easily folded up thanks to the folding slatted frame. The additional rear storage space offers plenty of room for luggage, baby carriages, bicycles and anything else you need to take with you on the road. The VANTourer MAN 600 D's advanced driver assistance systems ensure a carefree journey, offering additional comfort and safety on four wheels.

Don't miss out

Does that sound promising? The spacious panel van can be admired with your own eyes at **stand 1A01-06 in hall 01**. This year, it's particularly worth stopping by at the Caravan Salon – so don't miss out.
